## **Accounting Principles and Assumptions**

1. The revenue and expenditure of the government are recorded and reported using cash based accounting principle. This principle assumes all cash receipts into the consolidated fund account as revenue and all cash payments against a budget head as expenditure.
2. The reported revenue and expenditure include only those that affect the consolidated fund account of the government and the heads that were approved by the Parliament through the Appropriation Act and included in the Budget Speech.
3. The sum of expenditure also includes advance amount during the year that remained unsettled until the last day of the fiscal year. The Outstanding advances amounting to Rs. 9473.60 millions within the total expenditure of Rs. 259689 millions.
4. The reported expenditure also includes payments for accrued expenses of the previous year according to Financial Procedure Regulations 2064, 40(8) & (9).
5. The reported revenue is the amount collected in the government bank accounts. The deposited amount is used on the basis of cash accounting principles.
6. In the case of block grant given to local bodies and public corporations, the release money is considered as expenditure.
7. The expenditure figures are obtained from two sources namely District Treasury Control Offices (DTCOs) and concerned Line Ministries and reconciled at the FCGO. Wherever the figures did not reconcile, FCGO relies on the DTCO figures because they record all the expenditures and also carry out internal audit.
8. Source wise Expenditure is based on District Treasury Office. Where possible, it is reconciled with concerned Line Ministries.
9. In case of Direct Payments and Commodity Grants, wherever the line-item of the expenditure was not clarified by the reporting entities, FCGO used the line-item shown in the Budget Statement (the Red Book).
10. The non-cash expenditures (Direct Payments and Commodity Grants by the Development Partners) are not recorded in the government accounts. These figures are consolidated from Line Ministries and associated Projects. FCGO does not have any means of verifying whether any item of expenditure was incurred but not reported.
11. In case where Line Ministries have reported different amount for release and expenditure from non-cash sources, the release amount is treated as expenditure.
12. Although there is no provision in the rules, offices often lend money from one budget head to other budget head within the office or to other offices. In order to avoid the double accounting of the expenditure, cash balance has been shown in lending budget head and actual expenditure has been reported in the borrowing budget head.

13. For the expenditures incurred in foreign currency, the conversion is done on the rates prevailing on the value date. Wherever the value date could not be ascertained, rate prevailing at the year-end has been taken as the basis.
14. Appropriated budget in development programs of selected districts cannot be returned to DTCO at the end of the fiscal year, hence, the record of release balance and freeze accounts are reported as per DTCO.

Note The development expenditure figure of Kathmandu and some other DTCO includes direct payments and commodity grants given by donors. Although incidence of such expenditures is on several districts, the figure has been mostly loaded to Kathmandu because of difficulties in tracing the expenditure of districts. As a result, development expenditure of Kathmandu appears unreasonably high. The total annual figures of direct payments and commodity grants are:
